Reimagine the future of women in the built environment

W2F

.....

RATIONALE

.....

Women have been at the forefront of shaping industries, breaking barriers, and redefining leadership, especially in the building and construction value chain. Despite ongoing challenges, many have led organizations, driven innovation and influenced inclusive policies. This conference highlights their journeys sharing stories of resilience and achievement to inspire the next generation.

.....

OBJECTIVE

.....

01

To foster discussions on leadership strategies, organizational support and policy changes that can drive greater gender inclusivity and career progression for women.

02

To create a platform for knowledge-sharing, mentorship, and networking among women professionals, industry leaders and policymakers.

03

To showcase the success stories of women leadership building and construction value chain emphasizing their contributions, challenges, and achievements.

04

To accelerate women's leadership in the built environment with strategies for career advancement, mentorship and skill development.

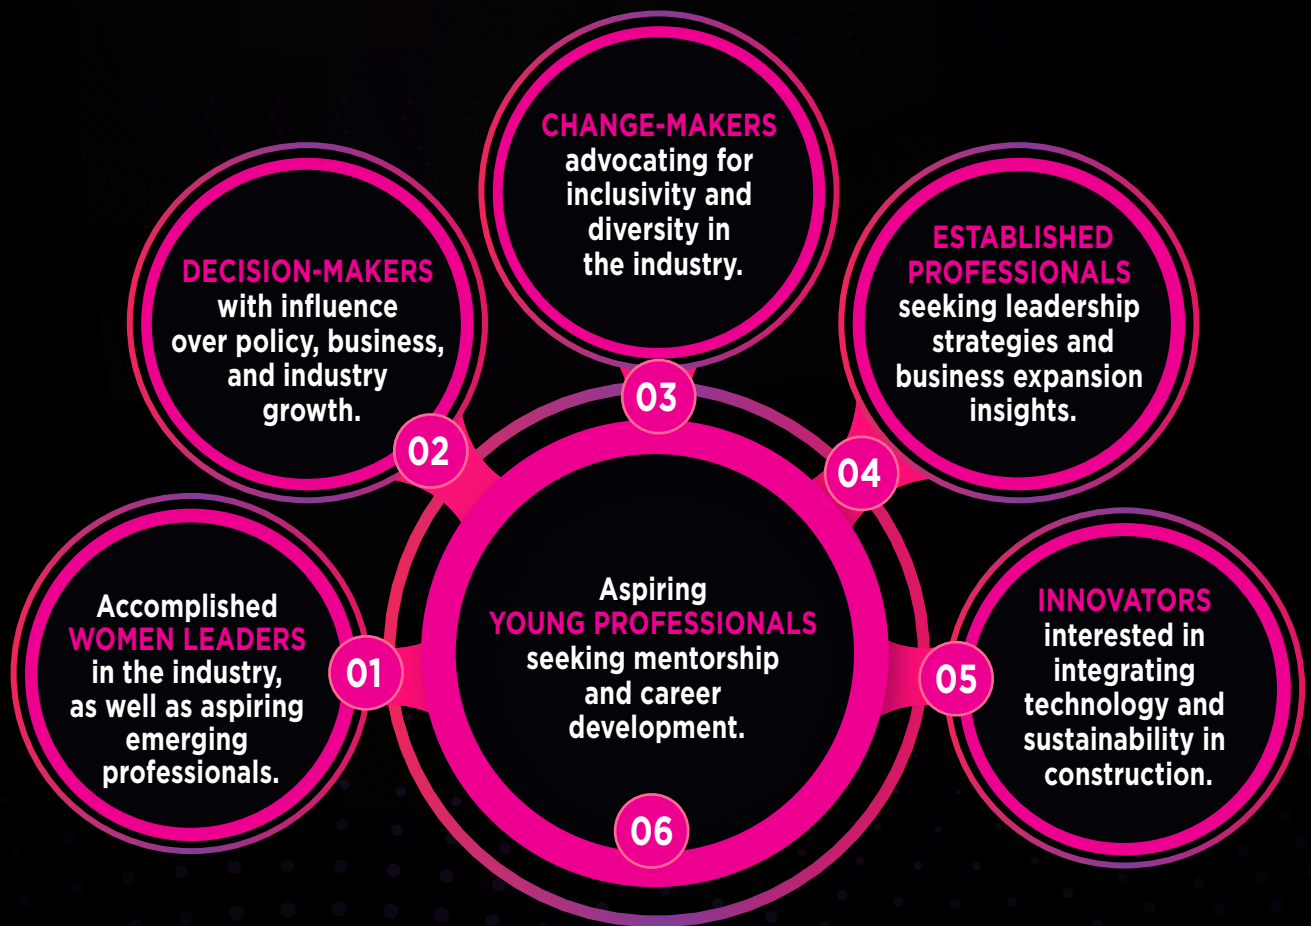

05

To inspire and empower aspiring professionals through real-life experiences of resilience, innovation and leadership.

.....

WE WELCOME
